SNAKE TONGS & CATCHERS

Standard Snake Tong

A trigger-operated snake tong for controlled handling at a distance. The straight shaft and open jaw profile provide a clear view of the contact area. Choose the working length and finish to suit your handling setup.

HOP-REP-001		HILL OF PRODUCTS
LENGTH OPTIONS	25 / 40 / 48 / 52 / 60 / 72 in	
OPERATION	Hand trigger	
DESIGN	Straight shaft; open jaws	
ORDER OPTIONS	Length and finish	

REQUEST A QUOTE
Share your HOP codes, quantities and delivery destination.

SNAKE TONGS & CATCHERS

Super-Option Snake Tong

A snake tong from the Super-option range, offered in several working lengths. The trigger handle operates the open jaws along a straight shaft. Select this model when specifying a Super-option configuration in your bulk enquiry.

HOP-REP-006

HILL OF PRODUCTS

LENGTH OPTIONS	25 / 40 / 52 / 60 / 72 in
OPERATION	Hand trigger
RANGE	Super-option tong
CONFIGURATION	Confirm with quotation

REQUEST A QUOTE

Share your HOP codes, quantities and delivery destination.

SNAKE TONGS & CATCHERS

Collapsible Snake Tong

A sectional snake tong designed for a more compact transport setup. The extended shaft provides working reach, while the trigger operates the jaws from the handle. Length and finish options are grouped under this model.

HOP-REP-007

HILL OF PRODUCTS

LENGTH OPTIONS	40 / 52 / 60 / 72 in
SHAFT	Collapsible design
OPERATION	Hand trigger
FINISH OPTIONS	Plain or coloured

REQUEST A QUOTE

Share your HOP codes, quantities and delivery destination.

SNAKE TONGS & CATCHERS

Cushioned-Jaw Snake Tong

A snake tong with a broad jaw profile and covered contact surface. The trigger mechanism allows the jaws to be operated from the handle, and the long shaft provides working reach. Choose the required size and jaw configuration when ordering.

HOP-REP-008

HILL OF PRODUCTS

LENGTH OPTIONS	25 / 40 / 52 / 60 / 72 in
JAW PROFILE	Broad contact area
CONTACT SURFACE	Covered jaw option
OPERATION	Hand trigger

REQUEST A QUOTE

Share your HOP codes, quantities and delivery destination.

SNAKE TONGS & CATCHERS

Wide-Jaw Reptile Grabber

A long-reach grabber with a broad jaw opening, aluminium handle and internal wire actuation. The spring-action mechanism is operated from the hand grip. Available lengths are grouped for straightforward bulk ordering.

HOP-REP-009

HILL OF PRODUCTS

LENGTH OPTIONS	28 / 38 in
ACTUATION	Internal stainless steel wire
HANDLE & JAWS	Aluminium
FINISH OPTIONS	Plain or coloured

REQUEST A QUOTE

Share your HOP codes, quantities and delivery destination.

SNAKE TONGS & CATCHERS

Black-Jaw Trigger Snake Catcher

A snake catcher with an open black jaw assembly and contrasting trigger handle. The long shaft separates the hand grip from the working end. Specify the required length and colour when requesting this configuration.

HOP-REP-010

HILL OF PRODUCTS

JAW DESIGN	Black open-jaw assembly
HANDLE	Trigger grip
COLOUR OPTIONS	Available on request
LENGTH	Confirm with quotation

REQUEST A QUOTE

Share your HOP codes, quantities and delivery destination.

SNAKE TONGS & CATCHERS

Angled-Jaw Snake Catcher

An angled-jaw snake catcher with a straight shaft and trigger-style grip. This configuration offers a distinct working-end profile within the catcher range. Colours and dimensions can be specified with the order enquiry.

HOP-REP-011

HILL OF PRODUCTS

PROFILE	Angled open jaws
HANDLE	Trigger-style grip
COLOUR OPTIONS	Available on request
LENGTH	Confirm with quotation

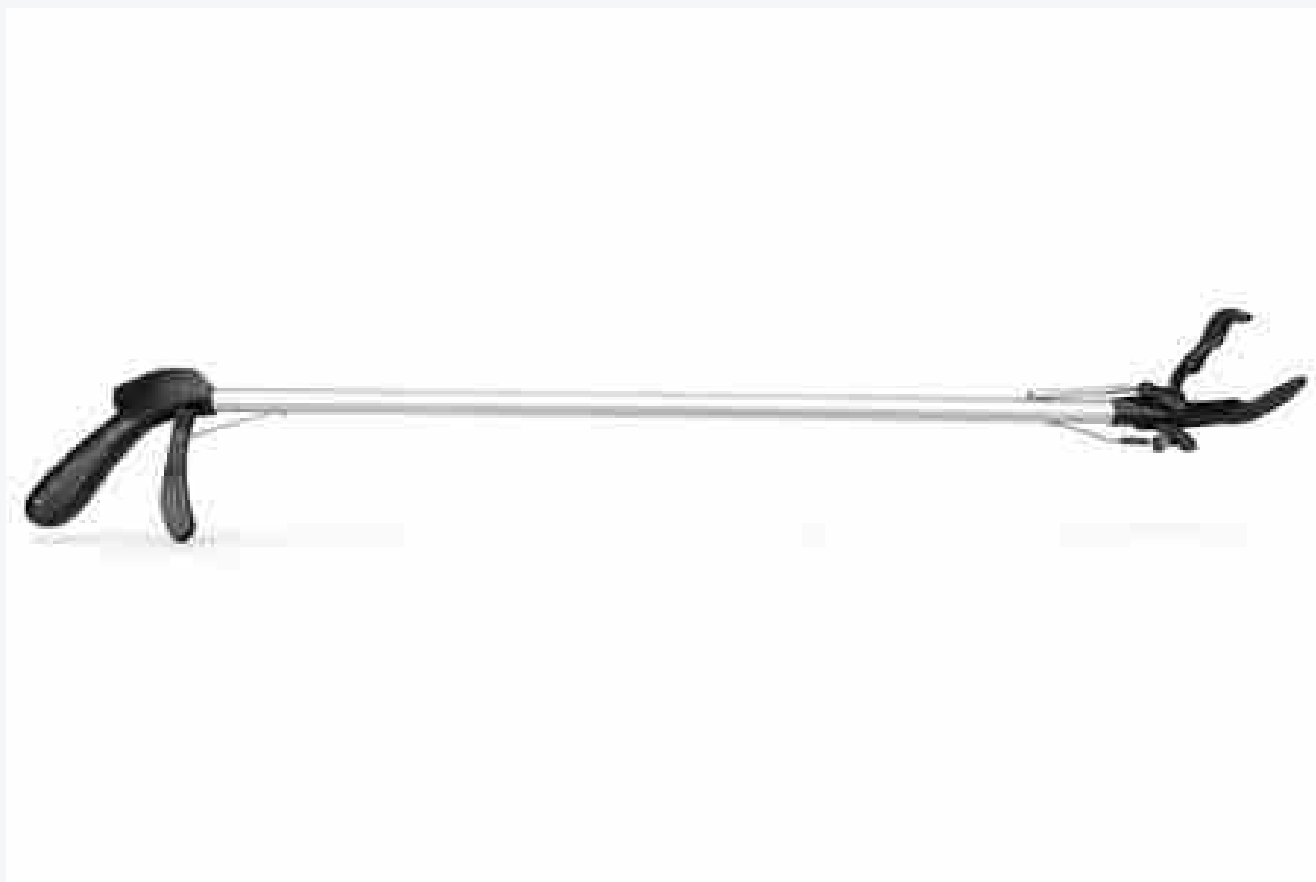

REQUEST A QUOTE

Share your HOP codes, quantities and delivery destination.

SNAKE TONGS & CATCHERS

Plier-Handle Snake Catcher

A long-shaft snake catcher with a plier-style handle and articulated black gripping end. The separate handle layout distinguishes this model from conventional trigger tongs. Confirm the required reach and jaw configuration with your quotation.

HOP-REP-012

HILL OF PRODUCTS

HANDLE	Plier-style
JAW ASSEMBLY	Articulated open profile
COLOUR OPTIONS	Available on request
LENGTH	Confirm with quotation

REQUEST A QUOTE

Share your HOP codes, quantities and delivery destination.

SNAKE HOOKS

Stainless Steel Snake Hook

A fixed-shaft snake hook with a curved support end and golf-style grip. The lightweight shaft offers useful reach for routine reptile handling, while the open hook profile keeps the animal visible during positioning.

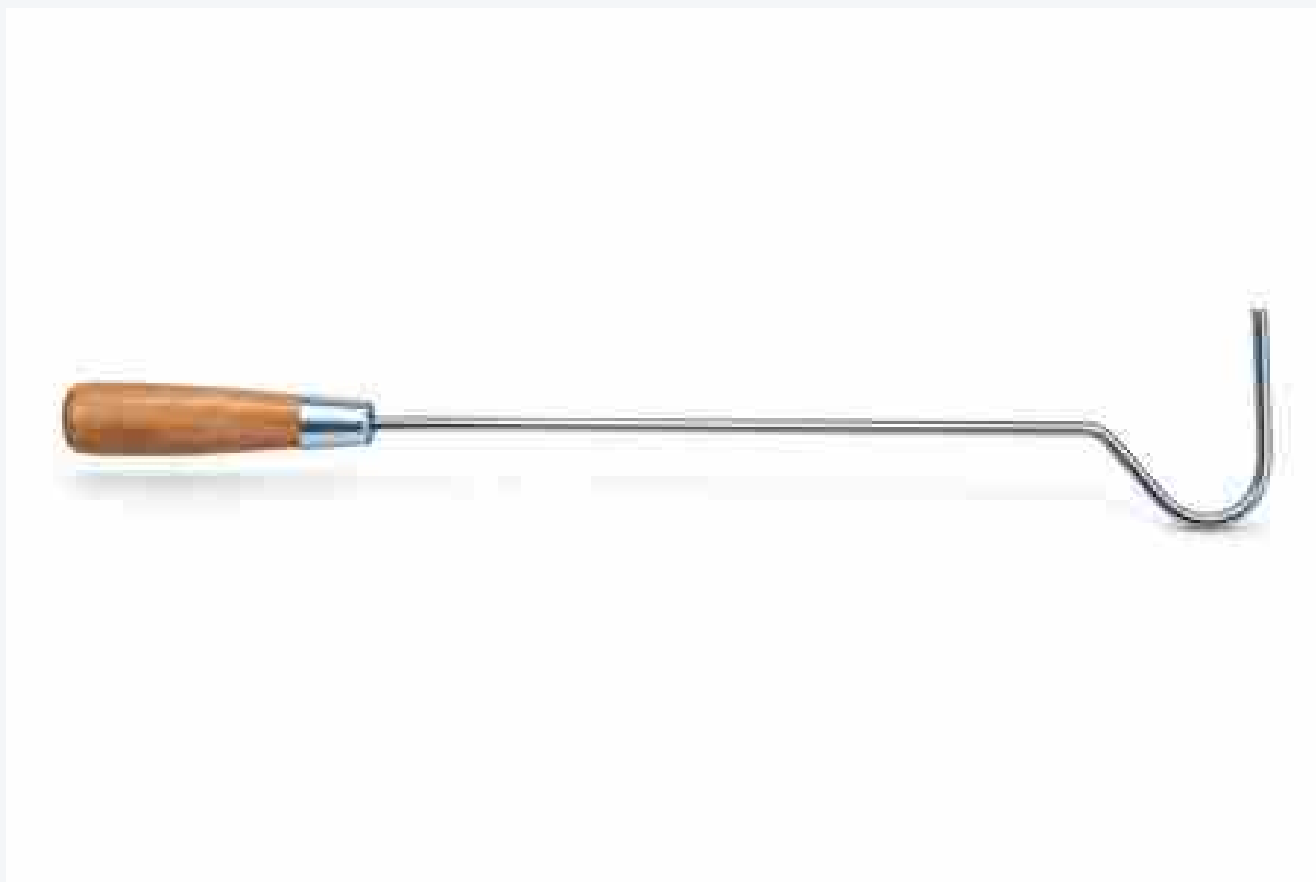

HOP-REP-002		HILL OF PRODUCTS
REFERENCE LENGTH	34 in	
HOOK OPENING	3.5 in	
SHAFT	Stainless steel	
GRIP	Golf-style handle	

REQUEST A QUOTE
Share your HOP codes, quantities and delivery destination.

SNAKE HOOKS

Small Snake Hook

A compact hook with a shaped handle and slender shaft for close-range reptile handling tasks. Its simple curved end provides a clear support point in confined working spaces. Specify the required length when requesting a quotation.

HOP-REP-003

HILL OF PRODUCTS

PROFILE	Compact curved hook
HANDLE	Shaped grip
LENGTH	Specify with enquiry
APPLICATION	Close-range handling

REQUEST A QUOTE

Share your HOP codes, quantities and delivery destination.

Snake Hooks

V-Shaped Snake Hook

A snake hook with an angled V-shaped support end and straight shaft. The defined bend offers an alternative to a rounded hook profile for reptile positioning. The reference model uses stainless steel and a golf-style grip.

HOP-REP-013

HILL OF PRODUCTS

REFERENCE LENGTH	34 in
HOOK PROFILE	V-shaped
MATERIAL	Stainless steel
HANDLE	Golf-style grip

REQUEST A QUOTE

Share your HOP codes, quantities and delivery destination.

SNAKE HOOKS

Interchangeable-Head Snake Hook Set

A modular snake hook set with a pole and interchangeable working heads. The selection of hook and pinning profiles allows one kit to cover different handling setups. Request the required head assortment and pole configuration together.

HOP-REP-014

HILL OF PRODUCTS

SET FORMAT	Pole with six head options
HEADS	Hook and pinning profiles
CONFIGURATION	Interchangeable
ORDER OPTIONS	Head assortment and pole

REQUEST A QUOTE

Share your HOP codes, quantities and delivery destination.

SNAKE HOOKS

Nylon-Head Snake Hook

A snake hook combining a nylon support end with a lightweight shaft. The non-metallic hook provides an alternative contact surface to a steel head, while the curved opening accommodates routine reptile positioning.

HOP-REP-015		HILL OF PRODUCTS
HOOK MATERIAL	Nylon	
HOOK OPENING	3.5 in	
SHAFT	Stainless steel	
HANDLE	Golf-style grip	

REQUEST A QUOTE
Share your HOP codes, quantities and delivery destination.

SNAKE HOOKS

Extendable Snake Hook

An extendable hook for reptile handlers who need a compact storage format. The shaft adjusts between storage and working positions, with a curved support end and hand grip. Confirm the extension range required for your order.

HOP-REP-016		HILL OF PRODUCTS
SHAFT	Extendable	
HEAD	Curved hook	
GRIP	Black hand grip	
EXTENSION RANGE	Confirm with quotation	

REQUEST A QUOTE
Share your HOP codes, quantities and delivery destination.

SNAKE HOOKS

Metal-Handle Coated Snake Hook

A solid-rod snake hook with a coated curved end and shaped metal handle. The simple fixed construction provides a straightforward handling tool, with multiple length options available under one product code.

HOP-REP-017

HILL OF PRODUCTS

LENGTH OPTIONS	16 / 24 / 38 in
ROD	Stainless steel
HOOK TIP	Rubber-coated
HANDLE	Aluminium

REQUEST A QUOTE

Share your HOP codes, quantities and delivery destination.

SNAKE HOOKS

Rubber-Grip Coated Snake Hook

A fixed snake hook with a coated working end and rubber hand grip. The curved profile supports reptile positioning, while the grip gives a defined holding area. Choose the length that suits the enclosure or handling station.

HOP-REP-018

HILL OF PRODUCTS

LENGTH OPTIONS	16 / 24 / 38 in
ROD	Stainless steel
HOOK TIP	Rubber-coated
HANDLE	Rubber grip

REQUEST A QUOTE

Share your HOP codes, quantities and delivery destination.

SNAKE HOOKS

Sectional Snake Hook

A sectional snake hook with joining collars along the shaft and a curved support end. It offers a compact transport option within the hook range. Specify the working length and section configuration with your enquiry.

HOP-REP-019		HILL OF PRODUCTS
REFERENCE MODEL	38 in class	
SHAFT	Sectional	
HEAD	Curved support hook	
GRIP	Black hand grip	

REQUEST A QUOTE

Share your HOP codes, quantities and delivery destination.

SNAKE HOOKS

Wide U-Profile Snake Hook

A long snake hook with a wide U-shaped support profile and hand grip. The open head provides a broad support area for positioning. Two reference lengths are offered; select the required material and configuration with the quotation.

HOP-REP-020

HILL OF PRODUCTS

LENGTH OPTIONS	45 / 55 in
HEAD PROFILE	Wide U-shaped
HANDLE	Rubber grip
MATERIAL	Varies by configuration

REQUEST A QUOTE

Share your HOP codes, quantities and delivery destination.

SNAKE HOOKS

Coloured Snake Hook Range

A coordinated range of slender snake hooks in multiple finishes. The long shafts and formed hook ends support routine reptile-handling setups. Select your preferred finish and dimensions without treating each colour as a separate product.

HOP-REP-021

HILL OF PRODUCTS

PROFILE	Slender shaft with formed hook
FINISH OPTIONS	Multiple colours
ORDER FORMAT	Single tools or assortments
DIMENSIONS	Confirm with quotation

REQUEST A QUOTE

Share your HOP codes, quantities and delivery destination.

SNAKE HOOKS

Round-Head Snake Hook Range

A round-head snake hook range with extended shafts and contrasting grip finishes. The rounded support profile differs from the angular hook options. Colours are grouped under one code; specify the preferred dimensions and handle finish.

HOP-REP-049

HILL OF PRODUCTS

HEAD PROFILE	Rounded
GRIP	Coloured handle options
ORDER FORMAT	Single tools or assortments
DIMENSIONS	Confirm with quotation

REQUEST A QUOTE

Share your HOP codes, quantities and delivery destination.

PINNERS & CONTROL TOOLS

Angled Pinning Hook

A straight-shaft pinning tool with an angled working end and hand grip. The open bent profile offers a different contact shape from loop-ended pinners. Available working lengths are grouped under the same model.

HOP-REP-022

HILL OF PRODUCTS

LENGTH OPTIONS	38 / 48 in
PROFILE	Angled working end
ROD	Stainless steel
HANDLE	Hand grip

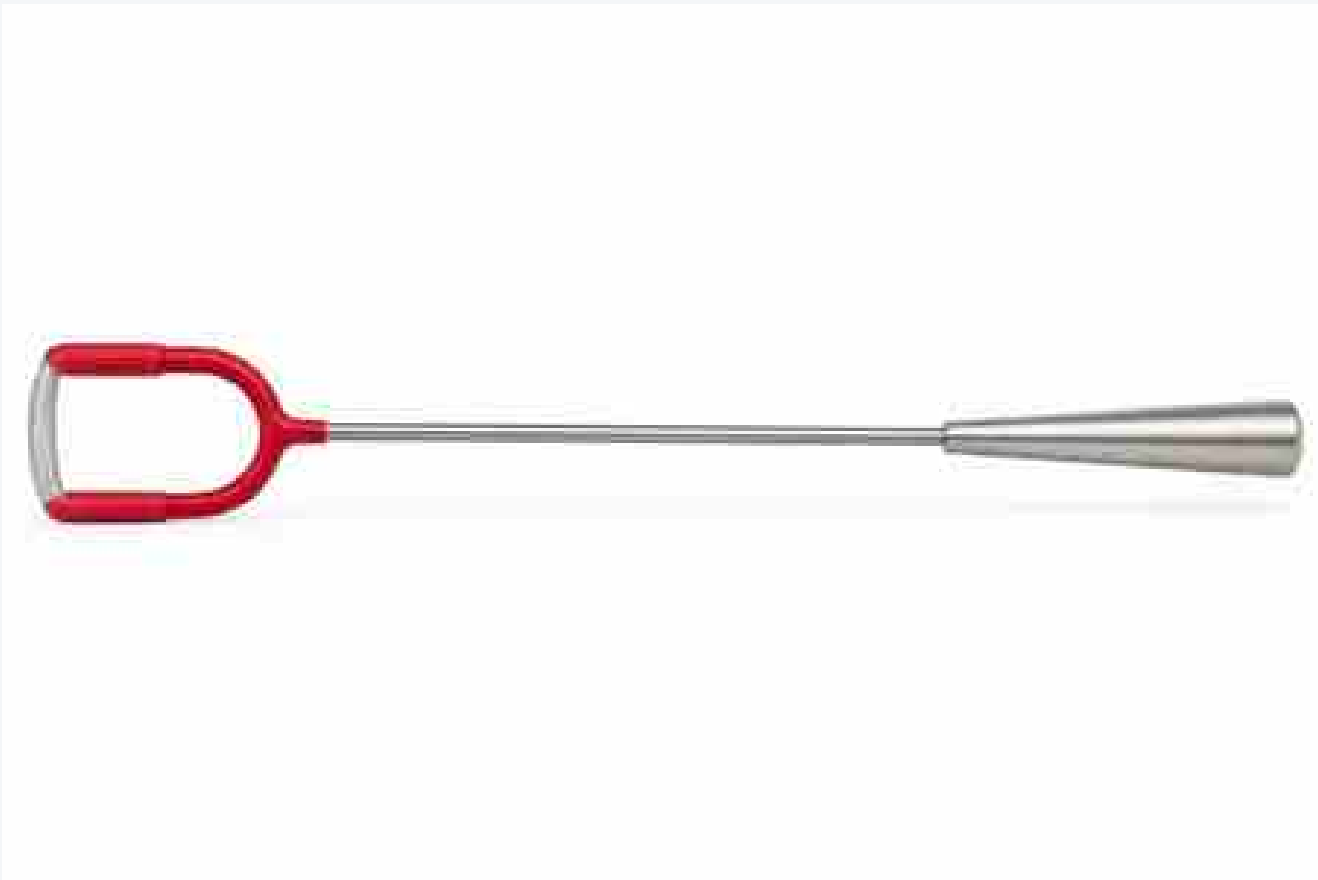

REQUEST A QUOTE

Share your HOP codes, quantities and delivery destination.

PINNERS & CONTROL TOOLS

D-Loop Pinning Tool

A pinning tool with a D-shaped loop end and a long, straight shaft. The loop profile provides a defined contact area. Metal-handle and rubber-grip configurations are available; specify the preferred version with your enquiry.

HOP-REP-023		HILL OF PRODUCTS
LENGTH OPTIONS	16 / 24 / 38 in	
WORKING END	D-shaped loop	
HANDLE OPTIONS	Metal or rubber grip	
APPLICATION	Specialist reptile handling	

REQUEST A QUOTE
Share your HOP codes, quantities and delivery destination.

PINNERS & CONTROL TOOLS

Combined Hook & Loop Pinner

A dual-ended reptile tool combining a curved hook at one end with a loop pinner at the other. The two working profiles reduce the need to carry separate tools for compatible handling tasks. Confirm the required overall length.

HOP-REP-024		HILL OF PRODUCTS
DESIGN	Double-ended	
END ONE	Curved hook	
END TWO	Loop pinner	
LENGTH	Confirm with quotation	

REQUEST A QUOTE

Share your HOP codes, quantities and delivery destination.

PINNERS & CONTROL TOOLS

Combined Hook & D-Pinner

A double-ended handling tool with a small hook and D-shaped pinning end. The straight shaft links two distinct working profiles in one instrument. Specify the preferred length and finish for your reptile-handling setup.

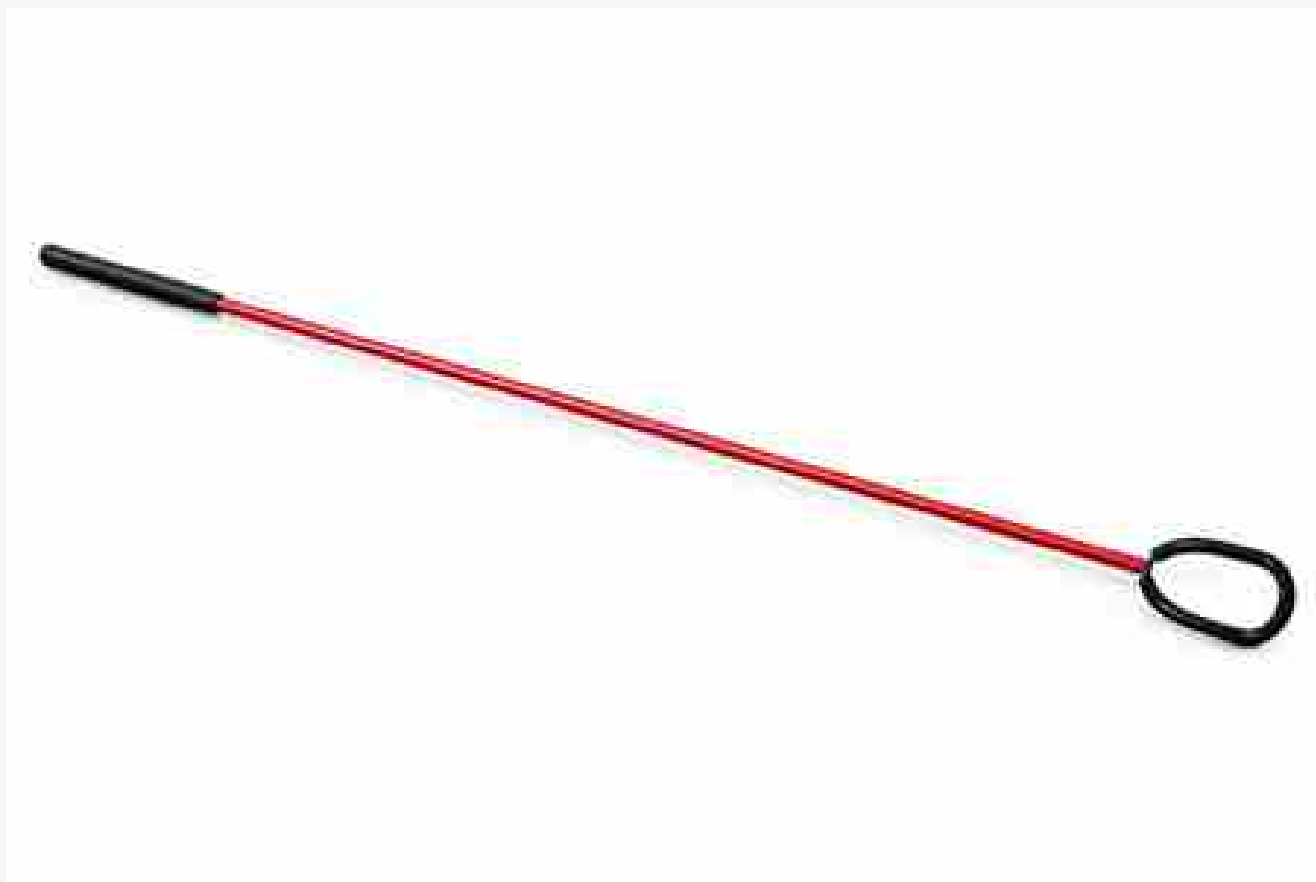

HOP-REP-025		HILL OF PRODUCTS
DESIGN	Double-ended	
END ONE	Small hook	
END TWO	D-shaped pinner	
ORDER OPTIONS	Length and finish	

REQUEST A QUOTE
Share your HOP codes, quantities and delivery destination.

PINNERS & CONTROL TOOLS

Loop-Ended Reptile Pinner

A slender reptile pinner with a closed-loop working end and hand grip. The uncomplicated shaft layout keeps the working profile visible during positioning. Size and finish options are grouped under one model.

HOP-REP-026

HILL OF PRODUCTS

WORKING END	Closed loop
SHAFT	Slender straight profile
FINISH OPTIONS	Available on request
LENGTH	Confirm with quotation

REQUEST A QUOTE

Share your HOP codes, quantities and delivery destination.

PINNERS & CONTROL TOOLS

Double-Ended Y-Fork Tool

A reptile-handling pole with forked working ends in a double-ended layout. Its Y-shaped profiles distinguish it from rounded hooks and loop pinners. Request the required length and finish to match the intended handling setup.

HOP-REP-027

HILL OF PRODUCTS

DESIGN	Double-ended
WORKING PROFILE	Y-shaped forks
COLOUR OPTIONS	Available on request
LENGTH	Confirm with quotation

REQUEST A QUOTE

Share your HOP codes, quantities and delivery destination.

PINNERS & CONTROL TOOLS

Enclosed-Loop Stainless Hook

A stainless hook with an enclosed-loop end and a shaped metal handle. The slim shaft and compact loop offer an alternative profile within the reptile-handling range. Dimensions are confirmed against the selected configuration.

HOP-REP-028

HILL OF PRODUCTS

MATERIAL	Stainless steel
WORKING END	Enclosed loop
HANDLE	Shaped metal handle
DIMENSIONS	Confirm with quotation

REQUEST A QUOTE

Share your HOP codes, quantities and delivery destination.

PINNERS & CONTROL TOOLS

Reptile Snare Pole

A long-shaft snare pole with a cable-loop working end and hand-grip sections. The remote loop format offers a distinct control-tool configuration. Select the working length and confirm suitability for the intended specialist handling task.

HOP-REP-048		HILL OF PRODUCTS
LENGTH OPTIONS	28 / 36 / 48 / 60 in	
WORKING END	Cable-loop format	
SHAFT	Long straight pole	
USE	Specialist handling	

REQUEST A QUOTE

Share your HOP codes, quantities and delivery destination.

FEEDING TWEEZERS & FORCEPS

Straight Reptile Feeding Tweezers

Straight feeding tweezers for presenting insects and other food items without direct finger contact. The long, narrow profile gives a clear approach to the feeding point, with a ribbed gripping area for controlled handling.

HOP-REP-004

HILL OF PRODUCTS

MATERIAL	Stainless steel
PROFILE	Straight
LENGTH OPTIONS	5 / 8 / 10 / 12 / 15 / 18 / 24 in
FINISH OPTIONS	Plain or coloured

REQUEST A QUOTE

Share your HOP codes, quantities and delivery destination.

FEEDING TWEEZERS & FORCEPS

Angled Rubber-Tipped Feeding Tweezers

Angled feeding tweezers with covered tips for presenting food around enclosure furnishings. The offset working end improves the approach angle, while the soft covering separates the metal tips from the food-contact surface.

HOP-REP-005

HILL OF PRODUCTS

PROFILE	Angled
TIP	Rubber-covered
REFERENCE SIZE	25 cm; other lengths available
ORDER OPTIONS	Length and finish

REQUEST A QUOTE

Share your HOP codes, quantities and delivery destination.

FEEDING TWEEZERS & FORCEPS

Curved Reptile Feeding Tweezers

Curved feeding tweezers for presenting food at an offset angle. The long arms keep the hand away from the feeding point, while the bent tips help approach around enclosure furnishings. Length and finish variants remain under one code.

HOP-REP-029

HILL OF PRODUCTS

MATERIAL	Stainless steel
PROFILE	Curved / angled
LENGTH OPTIONS	8 / 10 / 12 / 15 / 18 / 24 in
FINISH OPTIONS	Plain or coloured

REQUEST A QUOTE

Share your HOP codes, quantities and delivery destination.

FEEDING TWEEZERS & FORCEPS

Straight Rubber-Tipped Feeding Tweezers

Straight feeding tweezers with covered tips for presenting insects and other reptile foods. The long profile provides a direct approach, while the tip covering offers a softer contact surface than bare metal.

HOP-REP-030

HILL OF PRODUCTS

MATERIAL	Stainless steel
PROFILE	Straight
TIP	Rubber-covered
LENGTH OPTIONS	5 / 8 / 12 / 15 / 18 / 24 in

REQUEST A QUOTE

Share your HOP codes, quantities and delivery destination.

FEEDING TWEEZERS & FORCEPS

Broad-Grip Feeding Tweezers

Compact feeding tweezers with a broad gripping body and narrow working tips. This short-format tool offers close control when presenting small food items. Request the preferred finish and dimensions for your reptile-feeding range.

HOP-REP-031		HILL OF PRODUCTS
BODY	Broad gripping area	
TIPS	Narrow profile	
MATERIAL	Stainless steel	
DIMENSIONS	Confirm with quotation	

REQUEST A QUOTE
Share your HOP codes, quantities and delivery destination.

FEEDING TWEEZERS & FORCEPS

Straight Locking Feeding Forceps

Ring-handled feeding forceps with a locking ratchet and straight working jaws. The finger-loop design offers a different handling action from spring tweezers. Available lengths and plain or coloured finishes are grouped for ordering.

HOP-REP-032

HILL OF PRODUCTS

PROFILE	Straight
HANDLE	Finger rings with ratchet
MATERIAL	Stainless steel
ORDER OPTIONS	Length and finish

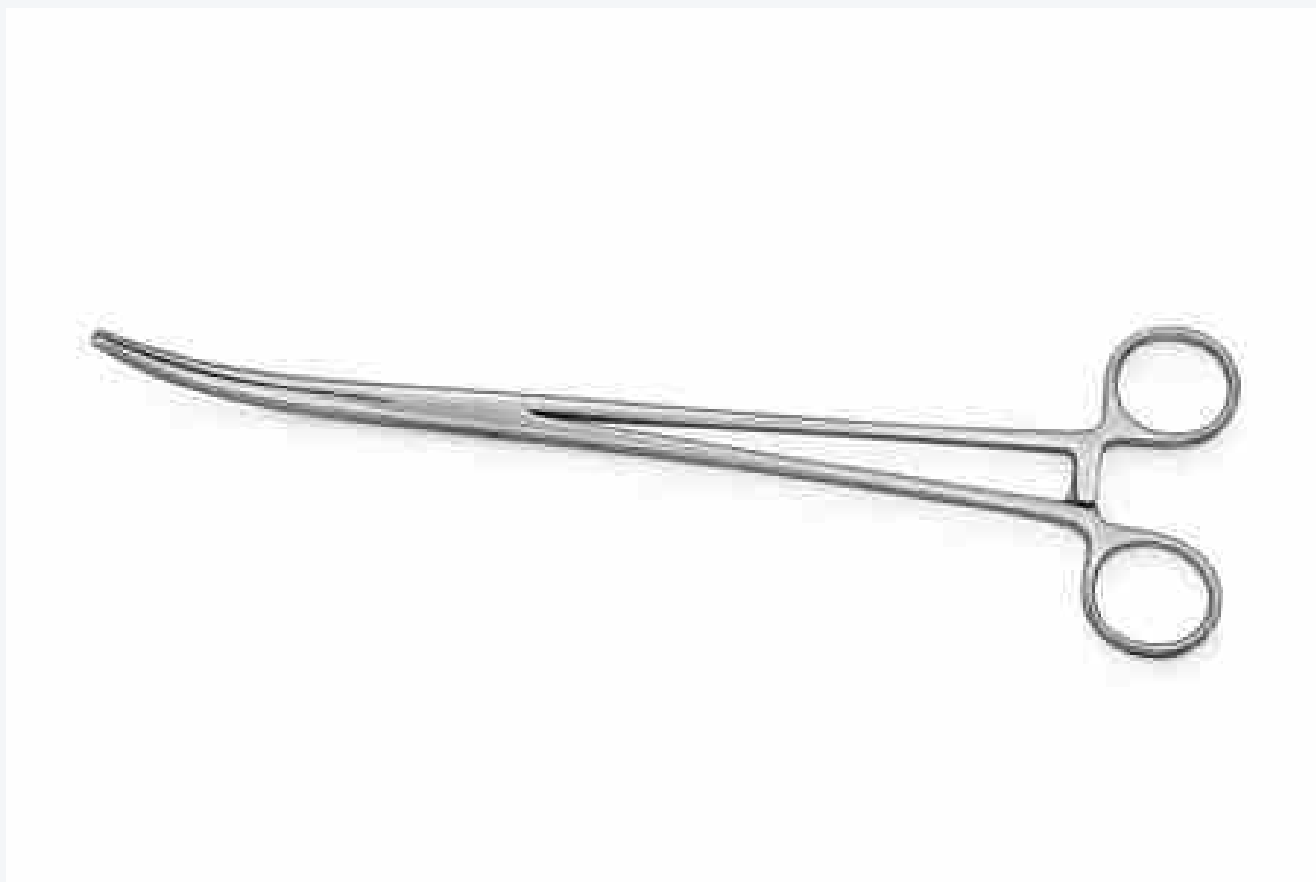

REQUEST A QUOTE

Share your HOP codes, quantities and delivery destination.

FEEDING TWEEZERS & FORCEPS

Curved Locking Feeding Forceps

Curved feeding forceps with finger rings and a locking ratchet. The offset jaws provide an angled approach to the feeding point. Choose the required length and finish for a consistent set of reptile-feeding tools.

HOP-REP-033

HILL OF PRODUCTS

PROFILE	Curved
HANDLE	Finger rings with ratchet
MATERIAL	Stainless steel
REFERENCE SIZE	25 cm; other lengths available

REQUEST A QUOTE

Share your HOP codes, quantities and delivery destination.

FEEDING TWEEZERS & FORCEPS

Feeding Forceps & Tweezer Sets

A coordinated feeding-tool assortment combining ring-handled forceps with tweezers of different profiles. Choose the tool mix, lengths and finish to suit your reptile-feeding setup. The illustrated five-piece arrangement is one available configuration.

HOP-REP-050		HILL OF PRODUCTS
COMPONENTS	Feeding forceps and tweezers	
SET FORMAT	Choose the required tool assortment	
FINISH OPTIONS	Plain, coloured or iridescent	
ORDER OPTIONS	Component mix and lengths	

REQUEST A QUOTE
Share your HOP codes, quantities and delivery destination.

PROBE SETS

Round-Tip Sexing Probe Sets

A compact assortment of rounded probes supplied in an organised storage format. Different probe sizes support professional selection of the appropriate instrument. Request the set count, probe diameters and pouch or case configuration with your enquiry.

HOP-REP-035		HILL OF PRODUCTS
TIP STYLE	Rounded	
SET OPTIONS	5 / 6-piece reference ranges	
MATERIAL	Stainless steel	
STORAGE	Pouch or case options	

REQUEST A QUOTE
Share your HOP codes, quantities and delivery destination.

PROBE SETS

Ball-Tip Sexing Probe Sets

A graduated assortment of ball-tip probes held in a compact storage case. The organised layout keeps the individual sizes easy to identify and select. Six- and eight-piece configurations are grouped under this product family.

HOP-REP-036		HILL OF PRODUCTS
TIP STYLE	Ball-ended	
SET OPTIONS	6 / 8 pieces	
MATERIAL	Stainless steel	
FINISH OPTIONS	Plain or gold-tone	

REQUEST A QUOTE
Share your HOP codes, quantities and delivery destination.

PROBE SETS

Loop-Handle Probe Set

A three-piece probe set with loop handles and a compact pouch format. The distinct handle shape offers a clear holding point, while the individual storage sections keep the instruments organised between uses.

HOP-REP-037		HILL OF PRODUCTS
SET CONTENT	3 probes	
HANDLE STYLE	Loop handle	
MATERIAL	Stainless steel	
STORAGE OPTIONS	Pouch or case	

REQUEST A QUOTE

Share your HOP codes, quantities and delivery destination.

PROBE SETS

Probe & Forceps Instrument Kit

A reptile instrument kit combining a graduated probe assortment with ring-handled instruments in a zip case. The fitted layout keeps the components together for storage and transport. Confirm the required instrument mix before ordering.

HOP-REP-038

HILL OF PRODUCTS

KIT FORMAT	Probes with ring-handled tools
STORAGE	Zip case
LAYOUT	Individual retaining sections
CONTENTS	Confirm with quotation

Share your HOP codes, quantities and delivery destination.

FEEDING PUMPS & ACCESSORIES

Pinkie Press Feeding Pump

A manual feeding pump for specialist assisted-feeding applications in reptiles. The plunger-driven format accepts a feeding attachment at the outlet. Specify the required pump, nozzle and cleaning-accessory configuration with your quotation.

HOP-REP-039		HILL OF PRODUCTS
OPERATION	Manual plunger	
FORMAT	Metal feeding pump	
ACCESSORIES	Nozzle and cleaner options	
USE	Professional assisted feeding	

REQUEST A QUOTE
Share your HOP codes, quantities and delivery destination.

FEEDING PUMPS & ACCESSORIES

Feeding Pump Replacement Inner Tube

A replacement inner tube for the matching pinkie press assembly. This separately listed component supports maintenance of the feeding-pump system. Confirm the pump model, tube dimensions and material before placing a spare-parts order.

HOP-REP-040

HILL OF PRODUCTS

COMPONENT	Replacement inner tube
COMPATIBILITY	Matching pinkie press
ORDER REQUIREMENT	Pump model and tube dimensions
MATERIAL	Confirm with quotation

REQUEST A QUOTE

Share your HOP codes, quantities and delivery destination.

FEEDING PUMPS & ACCESSORIES

Feeding Nozzle & Needle Set

A feeding-attachment assortment for a compatible pinkie press. The set brings different attachment profiles together in a storage case. Select the required connection and nozzle dimensions to match the feeding pump being ordered.

HOP-REP-041

HILL OF PRODUCTS

REFERENCE SET	5 feeding needles / nozzles
COMPATIBILITY	Matching pinkie press
STORAGE	Case format
CONNECTION	Confirm with quotation
